PROFILE

Web Developer with 2+ years of experience leading and executing complex website design projects. Proficient in **HTML**, **CSS**, **JavaScript**, **Bootstrap**, **WordPress**, **Wix**, **Shopify**, **Responsive Design**, and **Media Queries**. Proficient in leveraging Elementor's intuitive drag-and- drop interface to create visually stunning and user-friendly websites that seamlessly adapt to various devices. I'm also familiar with optimizing websites for search engines, which helps improve their visibility online. My goal is to write clean and efficient code to create websites that are not only functional but also easy to maintain.

EXPERIENCE

Vijay Digital India Pvt. Ltd. - Namakkal

Web Developer | July 2023 - Feb 2025 (1.8y)

- Designed and developed responsive websites using HTML, CSS, JavaScript, WordPress, Wix, and Shopify.
- Converted Figma designs into functional pages with HTML, CSS, and Bootstrap.
- Customized themes, built WooCommerce stores, and optimized sites for SEO and speed.
- Handled cPanel, DNS, SSL, email setup, and created visuals using Canva.

Webomindapps - Bangalore

Web Developer | Mar 2025 - Present

- Using React.js in front-end development to add dynamic functionality and enhance user experience.
- Designing advanced, user-friendly websites using HTML, CSS, JavaScript, and WordPress.
- Creating fully responsive designs for mobile, tablet, and desktop using Elementor and Figma.
- Learning and working with Shopify for custom storefront development and theme customization.
